New Safety Recall Advanced Communication – R54092415

FCA US LLC announced a safety recall on certain 2015 model year (BF) Fiat 500L vehicles.

Some of the above vehicles may not meet Federal Motor Vehicle Safety Standard (FMVSS) #208 – Occupant Crash Protection. The passenger airbag on some of the above vehicles may have been manufactured with irregularities in the airbag folding process. An improperly folded passenger airbag, during certain crash events, could result in the improper deployment of the airbag. This could allow additional injuries to front passenger seat vehicle occupants.

FCA will conduct a voluntary safety recall on all involved vehicles. The passenger side airbag module must be replaced.

Dealers will be notified of the launch of this safety recall by way of established methods used in the past.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
