Attention: All Dealer Principals

Kia Motors America, Inc. pursuant to the National Traffic and Motor Vehicle Safety Act is conducting a Voluntary Safety Recall Campaign to replace the brake-shift interlock mechanism with an improved one on certain 2011-2013 MY Sorento vehicles equipped with an automatic transmission, produced from October 19, 2009 through January 31, 2013. When excessive force is applied to the gear shift lever, the park position catch in the brake-shift interlock mechanism can chip or crack, thereby allowing the shift lever to be moved out of PARK without depressing the brake pedal.

The Technical Service Bulletin that provides vehicle repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com on **November 5, 2015**.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of retailed 2011-2013 MY Sorento vehicles.

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
