New Safety Recall Advanced Communication – R60101615

FCA US LLC announced a safety recall on certain 2003 model year (KJ) Jeep Liberty and 2004 model year (WJ) Jeep Grand Cherokee vehicles.

The above vehicles may experience inadvertent deployment of the front or side curtain airbags and/or seatbelt pretensioners. An inadvertent airbag deployment while driving could distract the driver and cause a crash without warning.

FCA will conduct a voluntary safety recall on all affected vehicles to replace the Occupant Restraint Control (ORC) module and front and/or side impact sensors as required.

Dealers will be notified of the launch of this safety recall by way of established methods used in the past.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
