

IMPORTANT SAFETY RECALL

R63 / NHTSA 15V-800

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This interim notification letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2013 and 2014 model year Dodge Dart vehicles equipped with a 2.0L or 2.4L Tigershark engine.**

The problem is... **The power brake booster on your vehicle may experience engine oil migration from the vacuum pump, through the vacuum supply tube, and into the brake booster. Prolonged brake booster diaphragm exposure to engine oil could cause the diaphragm to fail. This could lead to a loss of brake booster assist and/or an air leaking sound.**

A loss of brake booster assist could require the driver to apply additional brake pedal force to stop the vehicle. The lack of brake booster assist could change the braking characteristics of the vehicle and cause a crash without warning.

What your dealer will do... **FCA intends to repair your vehicle free of charge (parts and labor). However, the parts required to provide a permanent remedy for this condition are currently not available. FCA is making every effort to obtain these parts as quickly as possible. FCA will contact you again by mail, with a follow-up recall notice, when the remedy parts are available.**

What you must do to ensure your safety... **Once you receive your follow-up notice in the mail, simply **contact your Chrysler, Jeep, Dodge, or RAM dealer right away** to schedule a service appointment.**
