

IMPORTANT SAFETY RECALL

STOP RETAIL SALES and DELIVERY

Suzuki Motor Corporation has determined that a safety defect exists in the following models.

Model	Model Year	VIN Range
SFV650L3	2013	JS1VP55A1D2100564 ~ JS1VP55A4D2100803
SFV650L4	2014	No Effected Units
SFV650L5	2015	JS1VP55A8F2100001 ~ JS1VP55A8F2100046

PLEASE NOTE: All SFV650 motorcycles outside the VIN ranges referenced above can be sold and delivered to customers.

Suzuki Motor Corporation has instituted a safety recall campaign to replace the fuel tank breather hose and possibly the fuel tank on selected units.

During assembly, the fuel tank vent hose may have been installed incorrectly and may be kinked. If the hose is kinked, air flow through the hose may be restricted, resulting in abnormally high or low pressure inside the fuel tank. The abnormal pressure can lead to deformation of the fuel tank, and in the worst case it may crack, resulting in fuel leakage that can cause a fire.

IT IS A VIOLATION OF FEDERAL LAW TO DELIVER ANY NEW VEHICLE SUBJECT TO A SAFETY RECALL CAMPAIGN UNTIL THE DEFECT OR NONCOMPLIANCE HAS BEEN CORRECTED. ADDITIONALLY, SELLING A NON-REPAIRED UNIT IS A DIRECT VIOLATION OF YOUR SUZUKI DEALER AGREEMENT AND MAY LEAD TO ADDITIONAL SANCTIONS.
