February 2015

IMPORTANT SAFETY RECALL
NHTSA Recall Campaign # 15V-848

Dear Valued Jayco Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Jayco has decided that certain Model Year 2016 Alante Class A Motor homes manufactured November 3, 2015 through November 23, 2015 fail to conform to Federal Motor Vehicle Safety Standard number 210 “ Seat Belt assembly anchorage”.

The affected motor homes do not have the proper backer plate to anchor the seat belt bracket for the forward and rearing facing **dinette seats**. Improper anchoring of a seat belt may allow the belt to loosen/pull away from the seat and not restrain the passenger to prevent injury or death if the motor home would stop suddenly or be involved in a crash.

Do NOT sit in either of the Dinette Booth Seats while the motor home is moving, until the Recall Remedy has been performed on all four (4) seat belts.

Our records show the following Alante Motor Homes are affected by this recall and are currently in your inventory and require the recall repair prior to retail purchase:

GIAL0074

Federal law requires that all units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently that you have received a stock recall notice on, please contact the owner immediately to advise of the recall. In addition, please register the unit by submitting the Warranty Registration information to Entegra.

All pertinent recall documents are available under the Service and Parts tab on Jayco Partners. If you have any questions, please contact Jayco Customer Service at 1-800-517-9137 for assistance.

We certainly regret this inconvenience; however, we have taken this action in the interest of our customers' safety and continued satisfaction with their Jayco Motor Home.

Sincerely,
Jayco Motorized Division
