

DATE: April 20, 2017

TO: Service Directors, Service Managers, Training Coordinators and Service Technicians

SUBJECT: R71 Sun Visor Safety Recall Update Tech Tube

FCA Performance Institute is pleased to announce the launch of a new tech tube (**course code TT06012**) to educate service personnel on the August 2016 revision of the R71 Sun Visor Recall. This tech tube compliments the original R71 recall and will focus on certain steps that need to be followed correctly in order to complete the recall.

The tech tube is intended to highlight some of the key steps of the R71 Sun Visor Recall introduced in the August 2016 revision.

These steps include the required replacement parts, grinding the body sheet metal, and installing the plastic wire guide with proper wire routing.

It is the goal of FCA Performance Institute to make training as effective and convenient as possible for our dealers. Please take a moment at the end of the course to fill out the survey.

Sincerely,

FCA Performance Institute
