Subject: 2013-2015 Victory Motorcycle
Fuel Pump Replacement
PLEASE READ IMMEDIATELY

Dear Victory Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. The Victory Motorcycle Division of Polaris Industries Inc. has decided that a defect which relates to motor vehicle safety exists in some 2013-2015 Victory motorcycles. Our records indicate that you have purchased a potentially affected vehicle.

The reason for this recall:

Victory has determined that some fuel pump assemblies may have been manufactured with insufficient clearance between the fuel pump body and impeller which can interfere with normal fuel pump operation. Motorcycles assembled with an affected fuel pump may experience a sudden loss of fuel pressure causing the engine to stall. This could cause the vehicle operator to lose control, increasing the risk of a vehicle crash.

What Victory and your dealer will do:

Victory will issue a *Safety Recall Bulletin* to all Victory dealers, with the appropriate instructions to replace the affected fuel pump. Repairs will be made by an authorized Victory motorcycle dealer at no cost to you. The actual repair should take under two hours to perform; however, it may take longer due to service scheduling requirements.

NOTE: Replacement fuel pumps are currently available in limited quantities. Please contact your Victory dealer for the most up-to-date information regarding fuel pump availability.

What you should do:

Please coordinate a service visit with a local dealer at your convenience to have the work performed after they have ordered and received a fuel pump assembly for your motorcycle. Do not attempt repairs yourself. Repairs must be done only by an authorized Victory motorcycle dealer.

If you have questions or if you need more information:
