**Subject: Safety Recall 24AP – Fuel Injection System Leak
Certain 2011-2013 Model Year Audi S4, S5, A6, A7 & Q7 with 3.0L TFSI Engine**

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2011-2013 model year Audi vehicles equipped with a 3.0L TFSI engine. Our records show that you are the owner of a vehicle affected by this action.

What is the issue? Due to a combination of production tolerance issues and vehicle vibration during dynamic driving, it is possible that a fuel leak may occur in the vehicle's fuel injection system. Leaking fuel, in the presence of an ignition source, may result in a fire.

Additionally, some vehicles may benefit from having the thermostat and/or the crankcase pressure valve updated. Repairs to these other components are not related to the safety recall, but can be easily performed at the same time as recall repair.

What will we do? To help correct the safety defect, your authorized Audi dealer will replace both fuel rails and the fuel injector seals.

The thermostat and/or the crankcase pressure valve will also be updated on certain vehicles. These repairs are not related to the safety recall, but can easily be performed at the same time as the recall repair.

This work will take about eight hours to complete and will be performed for you free of charge.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

Precautions you should take Affected vehicles can continue to be driven as usual, but if you can smell fuel in the vehicle proceed immediately to the nearest authorized dealer or qualified workshop if you believe that it is safe to do so in order to have the fuel system on the vehicle inspected.

Important information for California Vehicle Owners – California Regulations

California regulations require that this campaign be completed prior to the time you renew your vehicle registration. Therefore, **please make sure that this campaign is completed prior to the renewal of your vehicle registration**, and that you furnish proof of completion to the Department of Motor Vehicles (DMV) in the form of a copy of the dealer's repair order, including a signed "Proof of Correction" certificate. You obtain this from your dealer after the campaign has been completed. Please retain the signed "Proof of Correction Certificate" with your vehicle records. **DO NOT MAIL THIS FORM** to the DMV, unless requested.

Lease vehicles and address changes

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply card and mail it to us so we can update our records.

Reimbursement of Expenses

If you have previously paid for repairs relating to the condition described in this letter, the enclosed form explains how to request reimbursement. We would be pleased to review your reimbursement request.
