RE: Safety Recall P055 – 3.0L V6 Connecting Rod Bolts Incorrect Torque Used

Vehicle Affected: LR4, Range Rover

Model Year: 2015

National Highway Traffic Safety Administration Recall Number: 15V-069

Dear Land Rover Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Land Rover has decided that a defect which relates to motor vehicle safety exists in certain 2015 model year LR4 and Range Rover Sport vehicles. Your vehicle is included in this Recall action.

What is the concern?

The engine fitted to your vehicle may have securing bolts which fix the big end bearing caps onto the engine connecting rod not torqued to the correct specification.

Vehicles with engines in this condition will exhibit unusual knocking noises from the engine compartment after a short period of use. If these noises are ignored, the big end bearing cap could detach from the connecting rod and the engine could seize and cut out. Once the engine has cut out, the brake vacuum reservoir will be depleted after 2-3 brake pedal depressions and the vehicle will lose brake power assistance; however, foundation brakes continue to operate. Hydraulic Power Steering will also be lost once the vehicle speed drops below the torque converter speed threshold; however, the vehicle steering will remain functional with increased steering effort required.

Engine cut out with minimal warning could potentially cause a crash.

What will Land Rover and your Land Rover Retailer do?

Land Rover is carrying out a recall of the vehicles mentioned above. An authorized Land Rover retailer will replace the engine in your vehicle. There will be no charge for this repair.

What should you do?

Contact your preferred Land Rover retailer and provide the retailer with your Vehicle Identification Number (VIN) and request a service date to complete the work required under Program Code P055.

How long will it take?

The work will be carried out as quickly and efficiently as possible in order to minimize inconvenience to customers and is expected to take approximately 21 hours to complete, although your retailer may need your vehicle for a longer time due to service scheduling requirements.

Attention Leasing Agencies: Federal regulations require that you forward this recall notification to the lessee within TEN (10) days.

Moved or no longer own a Land Rover?

If you are no longer the owner of this vehicle, Land Rover would appreciate the name and address of the new owner (if known); please fill out and return the enclosed return postage-paid card.

What should you do if you have further questions?

If you have any questions or concerns, please contact the Service Manager at your authorized Land Rover retailer for assistance. If you have any queries or concerns that your local retailer cannot address, please contact the Land Rover Customer Relationship Center at **800-637-6837, Option 9**, and one of our representatives will be happy to assist you.

You can also contact Land Rover by email: Visit the website <http://www.landroverusa.com>, select 'Contact Us' and send an email from the 'Email Land Rover' link.
