## **IMPORTANT SAFETY RECALL**

This notice applies to your vehicle: (Insert VIN)  
(NHTSA Recall Number: 15V-089)

February 19, 2015

Dear Kia Sorento Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Kia Motors has decided that a defect which relates to motor vehicle safety exists in some 2016 MY Kia Sorento vehicles. Our records indicate that you own or lease one of the potentially affected vehicles.

### **What Is The Problem?**

A capacitor for the circuit board in the accelerator pedal assembly in your vehicle may have been improperly soldered by the supplier. This could result in the illumination of the check engine light and/or electronic stability control indicator light. If this occurs, the vehicle will continue to function safely in Limp Home Mode. However, in certain circumstances, the engine will go into Forced Idle Mode, thus permitting only minimal vehicle acceleration. An inability to accelerate the vehicle beyond idle speed may increase the risk of a crash.

### **What Will Kia Do?**

Kia has advised its authorized dealers to replace the accelerator pedal assembly with an improved one to correct this condition at no cost to you. The estimated time which will be required to repair your vehicle is approximately one hour, however the actual time can vary depending on the dealer's work schedule, therefore scheduling an appointment is recommended.

### **What Should You Do?**

- Please contact your Kia dealer to arrange for the repair to be conducted as soon as possible.

### **What If You Have Already Paid To Have This Situation Corrected?**

If you have incurred expense to remedy this issue prior to the date of this notice, you may have the opportunity to obtain reimbursement for that expense.
