**This notice applies to your vehicle: «VIN»**

Dear «GreetingLine»

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Heartland RV (Heartland) has decided that a defect which relates to motor vehicle safety exists in certain Heartland travel trailers manufactured from March 5, 2015 to March 19, 2015. We apologize for any inconvenience this action may cause you, however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

It has been decided that all of the travel trailers subject to this recall campaign are equipped with a Norco Slide out system. The slide was manufactured with incorrectly rated bolts that hold the chain drive mechanism together. These bolts can snap from the tension which could allow the slide room to open during travel increasing the risk of a crash.

***What we  
will do***

Heartland will have an authorized dealer or repair center replace the 2 bolts connecting the chain drive assembly together with the properly rated bolts. This defect will be corrected at no expense to you, the owner.

***What we need  
you to do***

At your earliest convenience, Please contact your local dealer to set up an appointment to have this inspected and if needed corrected immediately, this service will be performed free of charge. You will need the following information for the phone call:

- VIN of your travel trailer
