IMPORTANT SAFETY RECALL

This notice applies to your vehicle, XXXXXXXXXXXXXXXXXXXX

Dear Hyundai Accent Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2015 Hyundai Accent vehicles produced beginning on September 15, 2014 through February 10, 2015, 2010. Our records indicate that your vehicle falls within this production date range.

What is the problem?

- The investigation by Hyundai has determined that the Supplemental Restraint System's Occupant Detection System may not properly classify an infant child restraint seat occupying the front passenger seat in very cold ambient temperatures (approximately zero degrees Fahrenheit and below). This condition may illuminate the airbag warning lamp in the instrument panel and impact the system's ability to deactivate of the front passenger airbag. The failure of the system to deactivate the front passenger airbag when an infant child restraint seat is occupying the front passenger seat could result in injury in the event of a crash. This condition does not impact the operation of the driver's frontal airbag.

What will Hyundai do?

- Your Hyundai dealer will update the Occupant Detection System. This procedure will be performed at no charge to you. The actual time required to perform the procedure should be less than 1 hour, however your vehicle may be needed longer depending on the dealer's schedule; therefore, we recommend scheduling a service appointment to minimize inconvenience.
