This notice has been sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Date: June, 2015

Dear Mitsubishi Owner,

Reason for notice: Mitsubishi Motors North America, Inc. (MMNA) has decided that a defect which relates to motor vehicle safety exists in certain 2009 - 2010 Lancer, 2010 Lancer Sportback, 2010 Lancer Evolution, and 2009 – 2010 Outlander vehicles. Due to a manufacturing error, the ETACS ECU on affected vehicles may contain components with a high electrical resistance. This condition can result in voltage instability, and in the worst case, the vehicle could lose headlights, tail lights, and/or windshield wiper functionality.

The loss of headlights and/or windshield wipers while driving could result in reduced driver visibility increasing the risk of a crash. The loss of tail lights while driving could result in an increased risk of being rear-ended. The engine warning lamp and/or the brake warning lamp will illuminate if the ETACS ECU malfunctions.

What you should do: Please contact your local Authorized Mitsubishi Motors dealer and schedule an appointment to have the recall remedy performed on your vehicle. When you bring your vehicle in, please show the dealer this letter. (If you misplace this letter, the dealer will still make this inspection/repair to your vehicle, free of charge.)

What your dealer will do: The dealership will inspect the ETACS ECU and replace it if necessary.

How long will it take? The time needed for this remedy is approximately **1.0** hr. The dealer may need your vehicle for a longer period of time due to service scheduling issues, but every effort will be made to minimize your inconvenience.

If you experience any problem having your vehicle repaired promptly and/or at no charge, please inform us by calling the Mitsubishi Customer Relations Department at **888-648-7820**. Hours: Monday through Friday 7 a.m. to 4 p.m. (Pacific Time)
