

IMPORTANT SAFETY RECALL

R22 / NHTSA 15V-282

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2015 model year Dodge Challenger** vehicles.

The problem is... **The left side “C” pillar Side Air Bag Inflatable Curtains (SABIC) on your vehicle may have been built with a loose or missing left rear SABIC bolt. The loose or missing left rear SABIC bolt could cause an increased chance of injury during certain crash conditions.**

What your dealer will do... **FCA will repair your vehicle free of charge.** To do this, your dealer will inspect for the presence of a left “C” pillar SABIC rear bolt. Vehicles found with a missing SABIC rear bolt must have a new SABIC bolt installed. Vehicles that do not have a missing SABIC rear bolt must have the existing SABIC rear bolt tightened to the proper specification. The work will take about ½ hour to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply **contact your Chrysler, Jeep, Dodge or RAM dealer** right away to schedule a service appointment. **Please bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **recalls.mopar.com** or 1-800-853-1403.
