Legacy, Outback, and Baja
NHTSA Recall No. 15V-323
September 2015**

Dear Subaru Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

SUBARU OF AMERICA, INC. has decided that a defect, which relates to motor vehicle safety, exists in certain 2003-2004 model year Legacy, Outback, and Baja vehicles.

DESCRIPTION OF THE SAFETY DEFECT AND SAFETY HAZARD

Subaru is consolidating two previous national recalls into one. The vehicles included in this consolidated national recall may contain a front passenger-side air bag inflator which could rupture with metal fragments striking the vehicle occupants potentially resulting in serious injury or death.

You received this notice because our records indicate that you currently own one of these vehicles and the recall has not yet been completed. If you have already had this repair performed, please disregard this notice.

REPAIR

Subaru will replace the inflator for your front passenger air bag at no cost to you.

WHAT YOU SHOULD DO

You should immediately contact your Subaru retailer (dealer) for an appointment to have the front passenger air bag inflator replaced with a new one.

Until this repair is performed, do not allow passengers to ride in the front passenger seat.

HOW LONG WILL THE REPAIR TAKE?

The time to replace the front passenger air bag inflator is approximately 40 minutes. However, it may be necessary to leave your vehicle for a longer period of time on the day of your scheduled appointment to allow your Subaru retailer flexibility in scheduling. Please present this letter to your Subaru retailer at the time this repair procedure is performed.
