NHTSA Recall 15V-370

IMPORTANT SAFETY RECALL

This notice applies to your vehicle.

Dear _____ :

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

WHAT IS THE REASON FOR THIS NOTICE?

Honda has decided that a defect which relates to motor vehicle safety exists in certain 2001-2005 model year Civic vehicles.

The defect in these vehicles could kill or injure you or other people in your vehicle.

Specifically, in some vehicles, the passenger's front airbag inflator could produce excessive internal pressure upon deployment. If an affected airbag deploys, the increased internal pressure may cause the inflator to rupture (break apart) and deploy abnormally. In the event of an inflator rupture, metal fragments could pass through the airbag cushion material possibly causing serious injury or fatality to you or others in the vehicle. A prior rupture like this resulted in serious injury.

Honda suggests that you avoid having a passenger sit in the front passenger's seat until the recall repair has been performed.

WHAT SHOULD YOU DO?

Enter your VIN on Honda's recall website (www.recalls.honda.com) or on NHTSA's recall website (www.safercar.gov) to confirm your vehicle's recall status.

Please call any authorized Honda dealer and make an appointment to have your vehicle repaired, **at no cost to you**, unless the recall websites indicated that there are no open recalls on your vehicle.

An illustration showing the location of the passenger's front airbag inflator, which is the only component of the airbag module (other components are the airbag cushion and airbag module cover) that will be replaced during the recall repair, is shown below:

While parts are available to conduct airbag inflator replacements at the time of this notice, the scope of the current airbag inflator recalls creates the possibility that the parts necessary to complete the recall repair may not be available at the time you call. If this occurs, please discuss your specific needs and concerns with your dealer, including the provision of, or reimbursement for, temporary alternative transportation, as necessary. You may also contact Honda's Automobile Customer Service (at the number listed below) to address your needs and concerns.

Once you make an appointment to repair your vehicle, be advised that the complete replacement process may take approximately 42 minutes; however, please ask your dealer for the specific time your vehicle will need to be at the dealership.

If you have questions or concerns, we encourage you to visit www.recalls.honda.com or to call Honda Automobile Customer Service at 1-888-234-2138.
