

## **IMPORTANT SAFETY RECALL**

**R27 / NHTSA 15V-393**

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2014 and 2015 model year Jeep® Cherokee vehicles**.

***The problem is...***      **The power liftgate control module on your vehicle may experience a corrosion induced high resistance short circuit in the power liftgate control module electrical connector(s). The power liftgate control module electrical connector(s) could allow water intrusion and cause the module to become inoperative and/or cause a fire.**

***What your dealer will do...***      **FCA will repair your vehicle free of charge.** To do this, your dealer will inspect for evidence of water intrusion and the power liftgate module electrical connectors for corrosion. The vehicle will be repaired to eliminate the water intrusion. On vehicles found with corrosion in the power liftgate module electrical connectors, the module and electrical connectors will also be replaced.

All involved vehicles will then receive a power liftgate module water shield after repairs are complete. The work will take about 2.5 hours to complete. However, additional time may be necessary depending on service schedules.

***What you must do to ensure your safety...***      Simply **contact your Chrysler, Jeep, Dodge or RAM dealer** right away to schedule a service appointment. **Please bring this letter with you to your dealer.**
