DESCRIPTION OF REPAIR

The left and right rear seat interior side panels will be modified to increase their energy absorbing performance. The resulting modification will not be visible either inside or outside of the vehicle and it will not reduce rear seat room.

This free repair will require approximately four hours; however additional time may be required depending upon your authorized MINI dealer's schedule.

CONTACT YOUR AUTHORIZED MINI DEALER IMMEDIATELY TO SCHEDULE AN APPOINTMENT TO HAVE THE NECESSARY REPAIR PERFORMED AS SOON AS POSSIBLE. You can find your nearest MINI dealer at www.miniusa.com/dealer.
