IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN: XXXXXXXXXXXXXXXXXXXX

Dear Hyundai Accent Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in certain model year 2009 through 2011 Hyundai Accent vehicles produced beginning on March 01, 2009 through February 11, 2011. Our records indicate that your vehicle falls within this production date range.

What is the problem?

- The stop lamp switch in the affected vehicles may intermittently malfunction. A stop lamp switch malfunction may result in intermittent ability to remove the vehicle's shifter from the Park position, illumination of the "ESC" (Electronic Stability Control) indicator lamp in the instrument cluster, intermittent cause an inability to deactivate the cruise control feature, and may also cause the brake lights to not illuminate when the brake pedal is depressed. The inability to disengage the cruise control or the intermittent operation of the stop lamps could increase the risk of a crash. A malfunction of the stop lamp switch does not affect the performance of the vehicle's service brake system.

What will Hyundai do?

- Your Hyundai dealer will replace your vehicle's stop lamp switch. This procedure will be performed at no charge to you. The actual time required to perform the procedure will take approximately 1 hour, however your vehicle may be needed longer depending on the dealer's schedule; therefore, we recommend scheduling a service appointment to minimize inconvenience.
