Land Rover has determined that a defect which relates to motor vehicle safety exists in 2015 model year Range Rover Sport and Range Rover vehicles. Your Vehicle is included in this Recall action.

**What is the concern?**

The second row seat backrest recline mechanisms may not latch correctly, it is possible the visual indication of correct latch (the operating lever) condition is false and misleading and as such, especially in the center second row seated position, the seatbelt may not correctly restrain the occupant during a crash, which increases the risk of injury.

There will be no charge for this repair.

**What should you do?**

Contact your preferred Land Rover retailer and provide the retailer with your Vehicle Identification Number (VIN) and request a service date to complete the work required under the Program Code P072.

**How long will it take?**

The inspection work will be carried out as quickly and efficiently as possible in order to minimize inconvenience to customers and is expected to take up to approximately three hours forty minutes to complete, although your retailer may need your vehicle for a longer time due to service scheduling requirements and vehicle conditioning.

**Attention Leasing Agencies:** Federal regulations require that you forward this recall notification to the lessee within TEN (10) days.
