***** IMPORTANT SAFETY RECALL ***
(PROGRAMA DE SEGURIDAD IMPORTANTE)**

**Safety Recall Notice 15S29 / NHTSA Recall 15V-614
Aviso de Revisión de Seguridad 15S29**

2015 F-150 Ford Truck
Your Vehicle Identification Number (VIN):

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue? On your vehicle, when the Adaptive Cruise Control (ACC) is engaged, the driver may experience unexpected braking while passing a large, highly reflective truck. The Collision Warning System red warning light may also flash and an audible tone may be heard at the same time. The brake lights will illuminate while the brakes are applied. The driver can override the ACC at any time using the accelerator pedal, brake pedal or by cancelling ACC through the steering wheel switches. The duration of this unexpected braking could increase the risk of a crash.

What will Ford and your dealer do? Ford Motor Company has authorized your dealer to reprogram the Adaptive Cruise Control Module free of charge (parts and labor).

How long will it take? The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do? Please call your dealer without delay and request a service date for Recall 15S29. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.

If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps, and driving instructions.

**What should you do?
