**IMPORTANT SAFETY RECALL 2015 100003**

**This notice applies to your vehicle, WDDSJ5 [REDACTED]  
Engine Control Unit Software Update  
NHTSA Recall # 15V652**

December, 2015

2015100003  
[REDACTED]

Dear Mercedes-Benz Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2014 to 2016 S-Class AMG S63 sedan and coupe vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**WE SENT YOU THIS NOTICE BECAUSE WE ARE CONCERNED ABOUT YOUR SAFETY.**

On certain Model Year 2014 to 2016 S-Class AMG S63 sedan and coupe vehicles, the engine control unit software may cause an irregular rpm at idle that could lead to an unintentional engine shut-down just prior to a vehicle stop (e.g., while coasting towards a traffic light). If this occurs, the driver might falsely interpret the engine shut-down as a planned shut-down as part of the ECO Start/Stop system. An engine shutdown without warning while driving can increase the risk of a crash.

An authorized Mercedes-Benz dealer will update the engine control unit software.

**This service will be provided free of charge.** We are dedicated to always delivering the Best or Nothing – and respect for your time is a top priority. While the minimum repair time is approximately two hours, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

For additional information and to schedule an appointment please contact **MERCEDES-BENZ OF ANYTOWN, 201-555-1234** or another authorized dealer, at your earliest convenience. To locate additional authorized dealers see [www.MBUSA.com/dealerlocator](http://www.MBUSA.com/dealerlocator). **Please mention you are scheduling an appointment to update the engine control unit software under Recall Campaign # 2015 100003.** You may be asked for your 17-digit Vehicle Identification Number (VIN) which, for your convenience, is located above your name at the top of this letter.

In the event that you are no longer the vehicle owner, or have had a change of address, please complete the reverse side and return the updated information in the enclosed envelope. If this is a leased vehicle and the lessor and registered owner receive this notice, please forward this information by first class mail to the lessee within 10 days to comply with federal regulations.

Should you have any questions or encounter any difficulty regarding this Recall Campaign please contact an authorized Mercedes-Benz dealer. If for any reason a dealer is unable to remedy your situation, we are always happy to hear from you. Please contact us at 1-(800) FOR-MERCEDES (1-800-367-6372). A new vehicle identification number (VIN)-based recall lookup tool, on our MBUSA.com website, now offers a search function that will indicate whether a vehicle has been subject to a safety recall, and whether that vehicle has had the free remedy performed. See [www.MBUSA.com/recall](http://www.MBUSA.com/recall).

If an authorized Mercedes-Benz dealer or MBUSA fails or is unable to perform this service without charge within 60 days, pursuant to law 49 U.S.C. Chapter 301, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590 or call the toll-free Auto Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153); or go to <http://www.safercar.gov>.

We regret any inconvenience this situation may cause you.

Sincerely,
