

IMPORTANT SAFETY RECALL

R58 / NHTSA 15V-663

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2016 model year RAM trucks equipped with a 5.7L Hemi engine and dual exhaust.**

The problem is... **The spare tire heat shield on your truck may be missing. The heat shield protects the spare tire from heat generated by the passenger side tailpipe. Spare tire exposure to excessive heat may damage the spare tire and increase the possibility of tread separation while the spare tire is in use. Spare tire tread separation, while the spare is in use, could cause a crash without warning.**

What your dealer will do... **FCA will repair your vehicle free of charge.** To do this, your dealer will inspect for the presence of a passenger side spare tire heat shield.
Trucks found with the passenger side spare tire heat shield missing will have a heat shield installed. Trucks driven more than 50 miles without a passenger side exhaust tailpipe heat shield will also have the spare tire replaced.

What you must do to ensure your safety... Simply **contact your Chrysler, Jeep, Dodge or RAM dealer** right away to schedule a service appointment. **Please bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **fcarecalls.com** or 1-800-853-1403.
