IMPORTANT SAFETY RECALL

This notice applies to your vehicle, XXXXXXXXXXXXXXXXXXXX

Dear Hyundai Sonata Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that your vehicle, with the Vehicle Identification Number shown above, fails to conform to the requirements specified in Federal Motor Vehicle Safety Standard (FMVSS) No. 135, Light Vehicle Brake Systems.

What is the problem?

- The subject vehicles are equipped with separate warning lamps for the Service Brake System and the Antilock Braking System (“ABS”). The ABS control logic in these vehicles could prevent the illumination of the ABS warning lamp during vehicle startup or driving. If an ABS malfunction were to occur while operating the vehicle, the Brake System warning lamp will illuminate but the ABS warning lamp will fail to illuminate.

Although there is no defect involving ABS operation in the subject vehicles, in the event of an ABS functional failure, the ABS warning light will not illuminate.

What will Hyundai do?

- Your Hyundai dealer will update the ABS control software, free of charge. Service is expected to take less than one hour to complete.
