Subject: Kingmor Supply Recall No 15V-772 - Safety Recall Ricon 15E-068

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**REASON FOR THIS RECALL**

Kingmor Supply, Inc. (Kingmor) has decided that a defect which relates to motor vehicle safety exists in certain school buses equipped with Ricon "S" 2000, 5000 and 5500 Series lifts manufactured between January 1, 2006 and August 25, 2014 equipped with platforms measuring 32"x51" and 34"x54".

**NOTE: This is a new recall different from recent Ricon recalls.**

**The Problem:**

The affected lifts are equipped with folding link arms that may have pivot holes that are too big, allowing the bearings to move out of position. If the bearings move out of position, the stowed platform may have excessive movement resulting in failure of the platform mounting. This failure could cause the wheel chair lift platform to fall out of the vehicle when the doors are opened, increasing the risk of injury for the lift operator.

**WHAT WE WILL DO**

Kingmor in cooperation with Ricon Corporation will provide owners a field modification instruction and all material required to mitigate this recall at no charge.

If you no longer have the vehicle described in this letter, please help us update our records by contacting Ricon Customer Service at 800-322-2884 or by email at [recall.admin@wabtec.com](mailto:recall.admin@wabtec.com).

**Federal law requires any lessor who receives a notification of a determination of a safety-related defect or noncompliance pertaining to any leased motor vehicle shall send the notice to the lessee within 10 days.**
