Dear Valued Open Range Vehicle Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Highland Ridge RV (Highland) (On behalf of Open Range Rv Inc.) has decided that a defect that relates to motor vehicle safety exists in certain Model Year 2014- 2015 Open Range, 3X fifth wheels manufactured May 3, 2013 through April 29, 2014. The CAUTION label required of the exterior of the recreational vehicle for the side vent of the sewer system was omitted during production. The label warns the owner to keep the drain valve closed to minimize the presence of sewer gases. If the drain valve is not kept closed, sewer gas may be present in the trailer and lead to illness or personal injury.

The remedy is place the CAUTION label on the exterior of the trailer, adjacent to the side vented termination valve. The CAUTION label is enclosed with this Recall Notification Letter. You may perform this remedy by following the enclosed instructions or contact a Highland Dealer to set an appointment to place the label on your trailer at no charge to you. The placement of the omitted label will take approximately 15 minutes.
