IMPORTANT SAFETY RECALL **This notice applies to your vehicle(s)**

Subject: Marmon-Herrington Front Drive Axle Hex Nuts

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC, on behalf of its Freightliner Trucks Division and its wholly owned subsidiary, Western Star Truck Sales, has decided that a defect that relates to motor vehicle safety exists on specific Freightliner Business Class M2 and Coronado 108SD and 114SD vehicles and Western Star 4900 vehicles manufactured September 26, 2014, through November 6, 2015, equipped with Marmon-Herrington front drive axles.

On certain vehicles, the front drive axle hex nuts on the flange yoke assembly were not torqued to specification. If the hex nuts are not tightened to specification, the driveshaft may disconnect from the front drive axle, potentially resulting in damage to the road surface or large debris on the road which may increase the risk of crash.

The hex nuts on the flange yoke will be torqued as necessary.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the Recall performed. To locate an authorized dealer, search online at www.Daimler-TrucksNorthAmerica.com / Contact Us / Find a Dealer.
