
IMPORTANT SAFETY RECALL

R68 / NHTSA 15V-878

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This notification letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2015 model year Jeep® Compass and Jeep Patriot vehicles.**

The problem is... **The power steering hose on your vehicle may have a clamp that was not installed correctly during the manufacturing process. The low pressure power steering return hose may detach and cause a large volume power steering fluid leak. Leaking power steering fluid, in contact with an ignition source, could result in an engine compartment fire without warning.**

What your dealer will do... **FCA will repair your vehicle free of charge.** To do this, your dealer will inspect the power steering hose clamp and replace it if required. The work will take about one hour to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... **Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. Please bring this letter with you to your dealer.**

If you need help... **If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Recall Assistance Center at 1-800-853-1403.**

Please help us update our records by filling out the attached prepaid postcard if any of the conditions listed on the card apply to you or your vehicle. If you have further questions go to **recalls.mopar.com**.
