RECALL CAMPAIGN BULLETIN

Reference: NTB17-054          Date: July 19, 2017

VOLUNTARY SAFETY RECALL CAMPAIGN
2001 – 2003 MAXIMA; FRONT PASSENGER AIR BAG INFLATOR

CAMPAIGN ID #: R1711
NHTSA #: 15V-287
APPLIED VEHICLES: 2001 – 2003 Maxima (A33)

Check Service COMM to confirm campaign eligibility.

INTRODUCTION

Nissan is conducting this Voluntary Safety Recall Campaign on certain specific 2001-2003 Maxima vehicles to replace the front passenger air bag inflator. This service will be performed at no charge to customer for parts or labor.

Takata has issued return packaging, shipping labels, documents, and directions that must be used and followed in order to properly carry out this campaign. Takata’s documentation is attached and is part of this bulletin.

IDENTIFICATION NUMBER

Nissan has assigned identification numbers R1711 to this campaign. This number must appear on all communications and documentation of any nature dealing with this campaign.

DEALER RESPONSIBILITY

It is the dealer’s responsibility to check Service Comm for the campaign status on each vehicle falling within the range of this voluntary safety recall campaign which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in a dealer’s inventory. Federal law requires that new vehicles in dealer inventory which are the subject of a safety recall must be corrected prior to sale. Failure to do so can result in civil penalties by the National Highway Traffic Safety Administration. While federal law applies only to new vehicles, Nissan strongly encourages dealers to correct any used vehicles in their inventory before they are retailed.

Nissan Bulletins are intended for use by qualified technicians, not ‘do-it-yourselfers’. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
REQUIRED SPECIAL TOOL (J-51315)

2. Turn the ignition OFF.

3. Disconnect both battery cables, negative cable first.

4. Wait at least 3 minutes.

5. Register the new inflator serial number as follows.
   - The new inflator is listed in the Parts Information.

   a. Attach the quick scan tool (J-52352) to your CONSULT PC USB port.
b. On the left side of the ASIST main menu, select **Tech Support Info**, then **Inventory Vehicle Actions**.

![Tech Support Info and Inventory Vehicle Actions](image)

**Figure 2**

c. Select **CLICK HERE** (Air Bag to VIN Registration).

![Select CLICK HERE](image)

**Figure 3**
d. Use the quick scan tool to scan the bar code (VIN) on the B-pillar label.
   - Wipe any dirt/debris from bar code before scanning.

**NOTE:**
- Some labels may not scan quickly.
- Hold the scan tool approximately 6 inches away from the label.
- Hold the trigger down until the label is read (this may take several seconds).

- VIN will automatically populate (see Figure 5).
- If needed, VIN can be entered manually.

---

**Airbag to VIN Registration**

11/28/2016 1:36:32 PM

Please enter/scanned VIN and Airbag Inflator Serial Number

<table>

<tr>
<td>Key Number</td>
<td></td>
</tr>
<tr>
<td>VIN</td>
<td></td>
</tr>
<tr>
<td>Airbag Serial Number</td>
<td>Submit</td>
</tr>
</tbody>
</table>

Step f; see next page.
(Select submit after both fields are populated).
e. Use the quick scan tool to scan the bar code (serial number) on the new inflator shipping box.
   - The serial number will automatically populate (see Figure 5 on previous page).

**NOTE:** If needed, the serial number can be entered manually.

f. Select **Submit** on the ASIST screen (see Figure 5 on the previous page).

6. Remove the passenger air bag module (module) from the vehicle.
   - Refer to the appropriate Electronic Service Manual (ESM) for module removal information.

**IMPORTANT:** Follow all cautions, warnings, and notes in the Electronic Service Manual (ESM) when working on or near a Supplemental Restraint System (SRS), such as an air bag.

**CAUTION:** Handle interior trim carefully to avoid damage. Work with clean hands and clean tools to avoid dirt and stains. Use protective covers as needed.

7. Set the module in a clean working area.

**NOTE:** Do not set the module with cover facing down.
8. Securely mount the air bag module support (support) in a vice (see Figure 7).

9. Replace the module Inflator:
   - Follow the Inflator Replacement Instructions on the next page.

10. Reinstall the module into the vehicle in reverse order of removal.
    - Make sure to use the new “one time use” module mounting bolts included with the harness kit.

11. Re-connect both battery cables – positive cable first.

12. Reset the clock and the radio settings.

13. Turn the ignition ON and observe the air bag warning light:
    - Light should illuminate for 7 seconds and then go out.

    **NOTE:** If the Air Bag Warning light does not operate as described above there may be an issue not covered by this campaign. Refer to ASIST and the appropriate ESM for additional diagnostic and repair information.

14. Return the removed (old / non-deployed) inflator in the box that the new inflator arrived in.
    - Follow the return instructions provided by Takata.
    - Return instructions provided by Takata are attached to this bulletin on page 20.
Inflator Replacement Instructions

**WARNING:** Wear safety glasses while performing inflator replacement.

1. Set the module on a clean working area.

2. Disconnect the harness clip from the module frame.

3. Attach the support bracket to the module frame.
   - Tighten the bolts holding the bracket to the module frame.
   - Leave the L brackets on each end slightly loose to allow for positioning of the module in the support.
**WARNING:** Work from behind and to the sides of the support.

4. Mount the module in the support.
   - Use bolts and nuts supplied with the support.

5. Make sure the module is centered in the support.
   **NOTE:** Centering the module in the support will allow access to the inflator securing nuts through the slots in the support.

6. Tighten all of the mounting bolts and nuts that hold the module to the support.

7. Carefully cut a few inches of the yellow corrugated harness cover in the area shown.
   - **Do not** cut the wires inside the corrugated cover.
8. Attach 2 shorting pins to the inflator harness as shown.

- Make sure to pair the wires from each end of the inflator.
  
  Blue with White  
  Red with Yellow

- Use an insulation displacement type wire connector as a shorting pin.

- Refer to the Parts Information for additional connector/shorting pin information.

9. Cut off the connector end of the harness.

10. Remove the 4 nuts from the module that hold the inflator in place (see Figures M8 and M9).

- Use a ratchet and extension.
11. Remove the inflator stopper.

**NOTE:** These nuts will not be reused.

12. Push the right side of the inflator out of the module.

- Twist the inflator to a position that will allow the connector and harness to fit through the opening.
13. Pull the inflator completely out of the module from the left side.

14. Set the old inflator in the clean working area making sure it does not roll and fall to the floor.

**NOTE:**
- Follow the return instructions provided by Takata.
- Takata supplied return instructions are attached to this bulletin on page 20.

15. Remove the new inflator from the box.

16. Slide the new inflator into the module assembly from the left side.

17. Make sure the inflator is positioned / oriented correctly as shown.

- **The flat side of the inflator end (on the right side) must face the flat side of the inflator housing.**
18. Install the inflator stopper and 4 inflator securing nuts finger tight (see Figure M15)

- Make sure to use new nuts.
- New nuts are included with the new inflator.

19. Make sure the inflator is pushed all the way into its housing – no gap on the right side (see Figure M15).

20. Make sure there is no gap between the inflator stopper and the inflator on the left side (see Figure M15).
21. Torque the 4 inflator securing nuts.
   - Torque nuts to: 3.9 Nm (0.39 kg-m, 34 in-lb).
   - Torque nuts in the order shown.

**IMPORTANT:**

- In the next step you will be attaching the new harness to the new inflator.
- Once an inflator connector is attached to the inflator, it **cannot** be disconnected.
- **Make sure to attach the connectors to the correct ends of the inflator** (see Figure M17).
  - Left / Right orientation is as shown in Figure M17.
22. Attach the new harness to each end of the inflator.

- Remove the dust proof stickers covering the ends of the inflator.
- A new harness is included with the new inflator.
- Make sure to attach the correct ends (see Figure M17 on the previous page).
- Refer to Figures M17, M18, M19 and M20.

- Make sure the T shape at the inflator end aligns with the T shape of the connector.
- Make sure the inflator connectors are fully engaged / seated (see Figure M20).

23. Remove the module from the support and set it on the clean working area.

24. Remove the module support bracket from the module frame.
25. Attach the harness clip to the module frame.

26. Route/attach the harness to the harness guides.

NOTE:

- Make sure to return the removed (old / non-deployed) inflator in the box that the new inflator came in.
- Follow the return instructions provided by Takata.
- Takata supplied return instructions are attached to this bulletin on page 20.

NOTE

NOTE: International (including Mexico and Canada), Hawaii, Alaska, Puerto Rico, and US Virgin Islands dealers CANNOT follow below shipping instructions. Instead, dealerships in those locations MUST contact the following Takata/Menlo USA representative directly for shipping instructions: Miguel Prigada – Tel #: 210-250-5078 or Email: MLG_TakataRestraints_International@xpo.com

NOTE: For Continental US 48 State dealerships, please follow steps 1-8 below:

- Specific to Step 4 below:
  - Follow step 4a if you receive the updated NON-FedEx label. Proceed to step 5.
  - Follow step 4b if you receive the FedEx label. Proceed to step 5.

1. Shipping Documents
   a) Box Label
      - Supplies with each kit
      - To be affixed to each box
   b) Over-pack Label
      - To be supplied by kico.
      - To be affixed to the outside of each pallet
   c) Bill of Lading
      - To be supplied by kico.
      - 5 copies: 1 for Dealer Records, 1 for LTL Driver
   d) ERS Document
      - To be supplied by kico.
      - To be provided by the Dealer to the LTL Driver for each shipment

2. Packing Instructions
   a) Confirm box is in acceptable condition. If a new box is needed, follow the new box instructions located in box 5 on this page.
   b) Place the undeployed air bag inflator in the “cradle” of the box insert.

3. Closure Instructions
   a) Close the top box flap, per box closure instructions located on front panel of box.

4a. Shipping Instructions – Label each Box
   a) New labels will begin shipping in each kit starting mid-June, 2015

5. Shipping Instructions – Prepare the Pallet
   a) Accumulate and palletize kits
   b) Arrange Kits on Pallet as pictured here
      - 20 boxes per row/layer (5x4)
      - 10 rows/layers per pallet (200 boxes)
   c) Skirt/wrap Kits to Pallet
   d) Affix Over-pack label on (1) side of Pallet (Not on Top)

6. Shipping Instructions – Schedule LTL Pickup
   a) Upon Accumulating 200 kits (1 Over-pack/Pallet) Minimum
      - Call XPO at 1-110-250-5079
      - If 200 Kits have not been accumulated in 30 days, please call XPO for direction
   b) Have the following information Available
      - Dealer #
      - Quantity of Over-packs/Pallets
      - Quantity of Passenger Inflator Kits on each Pallet
      - Shipping Information where shipping Documentation can be received

7. Shipping Instructions – Ship
   a) Give 1 Copy of BOL and 1 Copy of ERS to Driver
   b) Retain 1 Copy of BOL for dealership records and archive for 2 Years

8. Requesting a New Box / Shipping Labels
   If a new box or replacement shipping labels are needed, please contact the representative listed below by phone or email to request replacement materials.
   Primary Contact: Armando Gonzalez - Tel #: 210-250-5079
   E-Mail: SCFieldaction.1489D@xpo.com
   To help expedite your request, please be prepared to provide the following information:
   a) Serial number on the original box
   b) What type of shipping material needed
      - Replacement box
      - Two-part return label
      - Bill of lading
      - ERS Form
   c) Dealer shipping information
      - Contact name
      - Dealer address
      - Phone number
