IMPORTANT SAFETY RECALL See Enclosed VIN List

Subject: Takata Driver Side Airbags

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC (DTNA) has decided that a defect which relates to motor vehicle safety exists on specific model year 2008-2009 Sterling Bullet vehicles built with Takata driver side air bags manufactured October 15, 2007, through November 10, 2008.

The driver airbag inflator housing may rupture, due to excessive internal pressure, during normal airbag deployment events. (This condition is more likely to occur if a vehicle has been exposed to high levels of absolute humidity for extended periods.) An inflator rupture, during airbag deployment events, could result in metal fragments striking vehicle occupants, potentially resulting in serious injury or death.

Affected airbag inflators will be replaced.
