### DESCRIPTION OF PROBLEM

This recall involves tire information label. The tire information label contains an incorrect value for the vehicle's maximum capacity weight. In addition, the Certification label (or VIN label), contains an incorrect value for the vehicle's Gross Vehicle Weight Rating (GVWR) as these two values are related. Therefore, the labels do not conform to Federal regulations.

### PRECAUTIONS FOR YOUR SAFETY

1. **If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.**

### DESCRIPTION OF REPAIR

Your vehicle will be updated with a new tire information label containing the vehicle's correct maximum capacity weight, and a new VIN label containing the vehicle's correct Gross Vehicle Weight Rating (GVWR).

The actual repair will require approximately one hour; however additional time may be required depending on the MINI dealer's schedule. This work will be performed free of charge by your authorized MINI dealer.
