R24 / NHTSA 15V-470

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This interim notification letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA US LLC has decided that a defect, which relates to motor vehicle safety, exists in certain **2015 model year Chrysler 200** vehicles.

The problem is... The Power Distribution Center (PDC) electrical connector on your vehicle may have spread electrical terminal(s). A spread electrical terminal(s) could cause intermittent electrical connection(s) to certain electrical components. This may result in an engine stall or a shift to neutral event. Either of these conditions may cause a crash without warning.

What your dealer will do... FCA intends to repair your vehicle free of charge (parts and labor). However, the parts required to provide a permanent remedy for this condition are currently not available. FCA is making every effort to obtain these parts as quickly as possible. FCA will contact you again by mail, with a follow-up recall notice, when the remedy parts are available.

What you must do to ensure your safety... Once you receive your follow-up notice in the mail, simply **contact your Chrysler, Jeep, Dodge, or RAM dealer right away** to schedule a service appointment.

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Recall Assistance Center at 1-800-853-1403.
