Re: Parts Matrix

Dear Parts and Service Managers,

Attached is the weekly Parts Matrix which includes the Highest Priority parts situation along with the ordering process.

As a reminder, the Parts Matrix is updated weekly. It is important to monitor our DCS messages as things may change during the week.

Changes to this week's Parts Matrix are as follows:

Air Bag Ordering

Driver Air Bag Update 15V-318 (SIB 65 11 15) - Parts are now on Fair Share Allocation (FSA).

*Note: For those who requested pallet orders, please allow till the end of the week to be delivered.

Please read the process outlined in SIB 08 03 16.

The new part numbers listed in EPC, for accident cars and regular service repairs, are active for ordering.

The Interim parts on your shelf, listed in the current SIB's, are the older parts listed in EPC.

All 16V-071 SIB's are being updated with the new part numbers and will be published shortly.

Please review the chart as some of these parts are already arriving at your Dealership.

	Interim	Updated SIB
E83	6884326	6884311
	6884327	6884312
E8x and E9x	6884328	6884313
	6884329	6884314
E7x Inflator	6884812	6884813

Please do not perform any repairs without reading the SIB in its entirety.

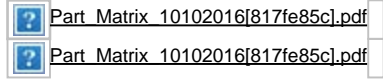

M Sub-Frame Bolts 16V-653 (SIB 33 05 16) - VIN specific ordering - Only the six required parts are blocked from ordering. The optional (if needed) part numbers are open for ordering.

Passenger Air Bag 16V-364 (SIB 65 19 16) – 72 12 9 141 529 is the part number listed on EPC – the nuts are also required.

Please continue to monitor our DCS messages and the weekly Matrix (attached) for parts ordering.

Thank you,
Parts Logistics
