Submit to NHTSA – September 23, 2016

On May 24, 2016, Honda decided to move all FIXED and UNFIXED vehicles currently involved in regional campaigns (safety improvement campaign 14V-353 and recall 14V-700) into 16V-344.

During this migration, Honda discovered approximately 100,000 FIXED vehicles that should have been migrated into 15V-370 during the Fall 2015 passenger airbag recall consolidation as FIXED VINs. To rectify the situation, these VINs were migrated out of the 14V-353 and 14V-700 campaigns and into the 15V-370 campaign as FIXED VINs.

573.6(c)(3)

Total number of potentially affected vehicles: see below for population updates.

<u>NHTSA ID</u>	<u>Previous Population</u>	<u>New/Current Population</u>
15V-370	3,399,157	3,498,481
