

IMPORTANT: SAFETY RECALL REMINDER

In January 2016, we notified you of a Safety Recall involving the starter relay switch on your 2013-2016 Honda scooter. At the time, we advised owner's of the following:

During assembly of the starter magnetic switch, it is possible the sealant may have been applied incorrectly. Incorrectly applied sealant may cause an interruption of the electrical system which may cause the engine to A) not start or B) stall while riding. The increased resistance at the main fuse could cause the starter relay switch to catch on fire.

According to our records, you have not yet had your affected scooter repaired. Please call your authorized Honda motorcycle dealer to schedule an appointment as soon as possible. This recall repair will be performed free of charge.

If you have already had your scooter repaired, or if you no longer own this scooter, please let us know by filling out the included, postage paid, *Information Change Card*. We will update our records and stop sending you reminder notices.

If you have any questions about this recall, your authorized Honda motorcycle dealer will be happy to assist you.

Sincerely,

**American Honda Motor Co., Inc.
Motorcycle Division**
