Dear :

**What is the reason for this notice?**

Our records indicate that a SAFETY RECALL has not been completed on this vehicle; refer to the address card for the affected VIN. The vehicle fails to conform to the requirements of Federal Motor Vehicle Safety Standards. There is a potential that a software error in the Information Display may cause the related warning lamps to not illuminate as required by federal standards, however the warning lamps will illuminate upon the next ignition key cycle. If the Information Display does not immediately illuminate the related warning lamp, the risk of a crash increases.

Additionally, the warning lights can be related to emissions and therefore must comply with emissions regulations.

**What will Honda do?**

Honda will update your vehicle's Information Display software **free of charge**. Please call any authorized Honda dealer and make an appointment to have your vehicle repaired.

**California Owners Only:**

The DMV will not renew your registration until this emissions recall has been completed. After completing the repair procedure, your dealer will give you a Vehicle Emission Recall - Proof of Correction certificate. Please make sure the dealer completes and gives you the certificate. Keep the certificate for your records as proof that the emissions recall was completed. Submit the certificate to the DMV only if the DMV requests it.
