

You may perform this inspection or take to an Entegra Dealer to perform the Recall at no charge to you.

Action Required

- 1 Inspect the electric, double entrance steps to determine if a LCI COACHSTEP.
When inspection confirms a COACHSTEP, please contact an Entegra Dealer for the recall repair.
- 2 Complete the Reply Form and return to Jayco Engineering / Regulatory Compliance

To confirm the type of Entrance step on the Motor Home is the COACHSTEP affected by LCI's Recall:

- 1 **Fig 1:** Open the complete step assembly and look at the bottom step, right corner for the label identifying the step as a **COACHSTEP**.
Fig 2: If the label is missing, look at the motor parts under the step.
The **COACHSTEP** will have the motor, gear plate assembly and step module located as shown in this diagram.
- 2 Complete the enclosed Reply Form and return to Jayco Engineering / Regulatory Compliance
