Dear Mr. Fronckowiak:

This letter serves to acknowledge Ford Motor Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

FORD/RANGER/2004-2006

Mfr's Report Date: January 22, 2016

NHTSA Campaign Number: 16V-036

Components:

AIR BAGS:FRONTAL:DRIVER SIDE INFLATOR MODULE

Potential Number of Units Affected: 361,692

Problem Description:

Ford Motor Company (Ford) is recalling certain model year 2004-2006 Ranger vehicles manufactured March 24, 2003, to May 4, 2006. Upon deployment of the driver side frontal air bag, excessive internal pressure may cause the inflator to rupture.

Consequence:

In the event of a crash necessitating deployment of the driver's frontal air bag, the inflator could rupture with metal fragments striking the vehicle occupants potentially resulting in serious injury or death.

Remedy:

Ford will notify owners, and dealers will replace the air bag inflators, free of charge. The recall is expected to begin March 7, 2016. Owners may contact Ford customer service at 1-866-436-7332. Ford's number for this recall is 16S03. Note: This recall supersedes 14V-343 and only applies to Rangers manufactured in North America.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.
