EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 1,912

Problem Description:

Highland Ridge RV (Highland) is recalling certain model year 2015-2016 Highland Toy Hauler, Light, Mesa Ridge, and Roamer travel and fifth wheel trailers manufactured May 6, 2014, to August 31, 2015. The Gross Vehicle Weight Rating calculation on the label may be incorrect, which can allow the vehicle to be overloaded.

Consequence:

If the vehicle is overloaded due to incorrect Weight Rating information on the label, tire failure may result, increasing the risk of a crash.

Remedy:

Highland will notify owners and will provide a corrected label, free of charge. One model, the HT31RGR Highland Toy Hauler will require two heavier axles installed and five larger tires as well. These repairs will be provided free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Highland customer service at 1-260-768-7771. Highland's number for this recall is 9904283.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Highland's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

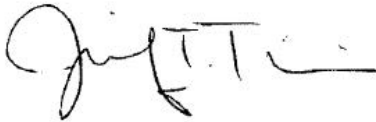

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
