Subject: Trailer Safety Chains may Fail

Dear Mr. Mihalick:

This letter serves to acknowledge KZRV, L.P.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

KZRV/MXT/2016

Mfr's Report Date: May 26, 2016

NHTSA Campaign Number: 16V-391

Components:

STRUCTURE

Potential Number of Units Affected: 2

Problem Description:

KZRV, L.P. (KZ) is recalling certain model year 2016 MXT travel trailers, model 3192, manufactured December 15, 2015, to March 22, 2016. The safety chains located on the A- frame are rated for 11,700 pounds instead of chains that are rated equal or greater than the gross vehicle weight rating (GVWR).

Consequence:

In the event that the main trailer connection fails, the weight of the trailer could break the safety chains. This would allow the trailer to separate from the vehicle, increasing the risk of a crash.

Remedy:

KZ will notify owners, and dealers will replace the safety chains with chains that meet or exceed the GVWR, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact KZ customer service at 1-800-768-4016 extension 153 or 154.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received KZ's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
