Mr. David Mihalick
Thor Motor Coach
419 W Pike St
Jackson Center, OH 45334

NEF-150MR
16V-469

Subject: Engine Brake may not Activate

Dear Mr. Mihalick:

This letter serves to acknowledge Thor Motor Coach's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

THOR MOTOR COACH/TUSCANY/2014-2016

Mfr's Report Date: June 23, 2016

NHTSA Campaign Number: 16V-469

Components:

ENGINE AND ENGINE COOLING:ENGINE
VEHICLE SPEED CONTROL:ACCELERATOR PEDAL

Potential Number of Units Affected: 487

Problem Description:

Thor Motor Coach (TMC) is recalling certain model year 2014-2016 Tuscany motorhomes manufactured February 28, 2013, to August 31, 2015. The throttle pedal position sensor on the affected vehicles may not return to zero, causing the engine brake to suddenly not activate as expected, reducing the vehicle's deceleration ability.

Consequence:

A sudden loss of an engine brake without warning on a motorhome may lead to a reduced brake capacity, potentially increasing the risk of a crash.

Remedy:

TMC will notify owners, and dealers for Daimler Trucks North America (DTNA), manufacturer of the motorhome chassis, will replace the throttle pedal, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact TMC customer service at 1-877-500-1020 or Daimler Warranty Campaign Department at 1-800-547-0712 or by email at DTNA.Warranty.Campaigns@Daimler.com. TMC's number for this recall is RC000119.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Thor's proposed owner notification letter and have approved it for distribution.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

You are required to provide an estimated date including month, day, and year, when you will send notifications to owners, dealers, and distributors as soon as it becomes available. Please be reminded that it is required that owners be notified of a safety defect in their vehicles within 60 days of a manufacturer's notification to NHTSA of a safety defect in those vehicles.

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

Please update your Defect Information report to identify whether TMC or DTNA will be supplying the required six quarterly recall completion rate reports.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
