VP of Engineering
E-One Incorporated
1601 SW 37th Ave.
Ocala, FL 34474

NEF-150KS
16V-567

Subject: Transmission May Not Switch from Road to Pump Mode

Dear Mr. Steyn:

This letter serves to acknowledge E-One Incorporated's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

E-ONE/CYCLONE II/2015-2016
E-ONE/TYPHOON/2015-2016

Mfr's Report Date: July 29, 2016

NHTSA Campaign Number: 16V-567

Components:

POWER TRAIN:MANUAL TRANSMISSION

Potential Number of Units Affected: 42

Problem Description:

E-One Incorporated (E-One) is recalling certain model year 2015-2016 Cyclone II vehicles manufactured July 31, 2015, to June 12, 2016, 2015-2016 Typhoon vehicles manufactured September 21, 2015, to July 27, 2016, 2015 Freightliner M2 vehicles manufactured November 3, 2015, and 2015 International 7400 vehicles manufactured November 3, 2015. The affected vehicles may be equipped with certain C20 and C21 split-shaft transmissions from Waterous. This transmission sends power to the wheels of an emergency response vehicle or powers an add-on unit such as a water pump used for fighting fires. A component within the shift unit may be damaged and as a result, the operator may not be able to switch the power output.

Consequence:

If the power output cannot be changed, once the fire truck arrives at the scene, it may not be able to pump water to aid in extinguishing the fire, increasing the risk of injury.

Remedy:

E-One will notify owners and will supply a remedy kit that replaces the clevis pin and retaining rings, free of charge. The recall is expected to begin September 19, 2016. Owners may contact E-One customer service at 1-352-861-3612.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received E-One's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
