Subject: Improperly Machined Trailer Spring Brake Valve

Dear Mr. Bisaillon:

This letter serves to acknowledge Groupe Cambli inc's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CAMBLI/BEVERAGE INDUSTRY TRAILER/2014-2015

Mfr's Report Date: September 7, 2016

NHTSA Campaign Number: 16V-652

Components:

PARKING BRAKE

Potential Number of Units Affected: 5

Problem Description:

Groupe Cambli Inc. (Cambli) is recalling certain model year 2014-2015 Beverage Industry trailers manufactured January 1, 2014, to September 30, 2015, equipped with certain Bendix SR5 spring brake valves. These valves may have been improperly machined which may cause a delay of application of the spring brakes while parking.

Consequence:

If there is a delay of the spring brake application, the trailer may roll away after it has decoupled from the tractor, increasing the risk of a crash or injury.

Remedy:

Cambli will notify owners, and Bendix dealers will install a remedy repair kit, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact contact Cambli customer service at 1-888-358-4920.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

Cambli, as the vehicle manufacturer, must do the owner notification. You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

You are required to provide an estimated date including month, day, and year, when you will send notifications to owners, dealers, and distributors as soon as it becomes available. Please be reminded that it is required that owners be notified of a safety defect in their vehicles within 60 days of a manufacturer's notification to NHTSA of a safety defect in those vehicles.

The information in your report suggests that Cambli may have been aware of this issue more than five business days before filing a report with NHTSA. Please be reminded that under Federal law, this agency is to be notified of all safety defect and/or noncompliance decisions within five business days. 49 CFR 573.6

We understand that Bendix will supply the required quarterly recall completion rate reports for this campaign.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
