16V-669

Subject: Label Incorrectly States Two Axles/Part 567

Dear Ms. Tobias:

This letter serves to acknowledge Starcraft RV's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

STARCRAFT/AR-ONE MAXX/2017

Mfr's Report Date: September 14, 2016

NHTSA Campaign Number: 16V-669

Components:

EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 40

Problem Description:

Starcraft RV (Starcraft) is recalling certain 2017 AR-ONE MAXX LE trailers, model 19BHLE, manufactured August 25, 2016, to September 6, 2016. The Federal label on the affected vehicles states that the trailers are built with two axles, each with a 2500 pound capacity, however, the vehicles are only built with one 2500 pound capacity axle. As such, these vehicles fail to comply with the requirements of 49 CFR Part 567, "Certification."

Consequence:

The trailer would be overloaded if the operator goes by the listed axle capacity, possibly resulting in axle or tire failure, thereby increasing the risk of a crash.

Remedy:

Starcraft has notified the dealers who have the trailers quarantined and will provide them with a corrected Federal label, free of charge. The recall began September 19, 2016. Owners may contact Starcraft customer service at 1-800-945-4787. Starcraft's number for this recall is 9902319.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

All units must be remedied prior to their sale. If a unit has inadvertently been sold, an owner notification letter must be sent compliant with Part 577. Once all units have been remedied, please provide one quarterly report stating a 100 percent completion rate.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian". The signature is fluid and cursive, with a long horizontal stroke at the end.
