Subject: Door Hinges may Fail Causing Door to Detach

Dear Mr. Wilson:

This letter serves to acknowledge Cummins Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CUMMINS POWER GENERATION/GENERATOR SET/2015-2016

Mfr's Report Date: November 22, 2016

NHTSA Campaign Number: 16V-861

Components:

STRUCTURE:BODY:DOOR:HINGE AND ATTACHMENTS

Potential Number of Units Affected: 164

Problem Description:

Cummins Inc. (Cummins) is recalling certain model year 2015-2016 Cummins Power Generation Generator sets, models C60D6R, C150D2RE, C100D6R, C200D6R, C200D2RE, C275D2RE, and C300D6R, manufactured December 18, 2015, to October 3, 2016. The affected generator sets have been mounted on trailers, and due to the possibility that the door hinges may fail, the generator set doors may detach while the trailer is being moved.

Consequence:

If the door detaches, it can become a road hazard, increasing the risk of a crash.

Remedy:

Cummins will notify owners, and dealers will replace the hinges, free of charge. The recall is expected to begin December 16, 2016. Owners may contact Cummins customer service at 1-800-343-7357.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Cummins' proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
