Production Dates : SEP 06, 2011 - APR 30, 2014

VIN (Vehicle Identification Number) Range

Begin : NR

End : NR

 Not sequential VINs**Description of Defect :**

Description of the Defect : Safety chains placed on the A-frame by supplier are rated for 11,700lb and are not in compliance with safety changing rating per industry SAE - which states that each safety chain must be equal or greater than the GVWR of the trailer

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : In event the main trailer connection fails, the weight of the trailer can break the safety chains if not heavy enough. allowing the trailer to separate from the vehicle, increasing the risk of a crash.

Description of the Cause : Error made on Engineering print provided to supplier - LCI

Identification of Any Warning that can Occur : NR

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

This issue was first discovered on travel trailers manufactured under new company.... HIGHLAND RIDGE and a recall was filed 1-29-16 (16V-058). Further investigation discovered that the print error went back prior to creation of new company, affecting OLD Company (OPEN RANGE) units. 2-19-16 scope for OLD company affected units was created

Description of Remedy :

Description of Remedy Program : NEW Company (Highland Ridge) Dealers will remove the existing safety chains and replace with 16,200 lb rated safety chains at no charge to owner.

How Remedy Component Differs from Recalled Component : size of chains....Label on chains noting smaller size 11,700 vs 16,200

Identify How/When Recall Condition was Corrected in Production : NR

Recall Schedule :

Description of Recall Schedule : NR

Planned Dealer Notification Date : NR - NR

Planned Owner Notification Date : NR - NR

* NR - Not Reported
