Address : NR

NR

Country : NR

Chronology :

March 12, 2016 - production discovered stock of 3500lb axles was too high than what was reported as being used. During audit found that the 3000lb axles in stock was also incorrect - Production runs were reviewed and a unit inspected...discovered the run of 10 units built March 3 used the incorrect axles (2 per Unit)

Description of Remedy :

Description of Remedy Program : Jayco will shipped correct axles at no charge to Dealers to install on travel trailers - and will be reimbursed the Dealers for the labor under the recall -
NO UNITS ARE RETAIL SOLD

How Remedy Component Differs from Recalled Component : SIZE OF AXLE

Identify How/When Recall Condition was Corrected in Production : Production has created new signs to note the size of axles in stock.
