OMB Control No.: 2127-0004

Part 573 Safety Recall Report

16V-358

Manufacturer Name: Subaru of America, Inc.

Submission Date: JUL 06, 2016 **NHTSA Recall No.:** 16V-358 **Manufacturer Recall No.:** TKA-16

Manufacturer Information:

Manufacturer Name: Subaru of America, Inc.

Address: P.O. Box 6000

Cherry Hill NJ 08034-6000

Company phone: 856-488-8500

Population:

Number of potentially involved: 302,127 Estimated percentage with defect: NR

Vehicle Information:

Vehicle 1: 2003-2004 Subaru Legacy

Vehicle Type: LIGHT VEHICLES

Body Style : 4-DOOR Power Train : GAS

Descriptive Information: Not all vehicles in the specified production date range are affected by this recall.

This recall affects Takata Non-Desiccated Frontal Air Bag Inflators Containing Phase Stabilized Ammonium Nitrate for Zone A, for vehicles not already covered under NHTSA Campaign Numbers 14V-763 and 15V-323. Zone A includes states and U.S. territories with the greatest temperature cycling and absolute humidity. It includes: Alabama, California, Florida, Georgia, Hawaii, Louisiana, Mississippi, South Carolina, Texas, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands (Saipan),

and the U.S. Virgin Islands.

Production Dates: MAY 14, 2002 - FEB 27, 2004

Vehicle 2: 2003-2004 Subaru Outback

Vehicle Type: LIGHT VEHICLES

Body Style : SUV Power Train : GAS

Descriptive Information: Not all vehicles in the specified production date range are affected by this recall.

This recall affects Takata Non-Desiccated Frontal Air Bag Inflators Containing Phase Stabilized Ammonium Nitrate for Zone A, for vehicles not already covered under NHTSA Campaign Numbers 14V-763 and 15V-323. Zone A includes states and U.S. territories with the greatest temperature cycling and absolute humidity. It includes: Alabama, California, Florida, Georgia, Hawaii, Louisiana, Mississippi, South Carolina, Texas, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands (Saipan),

and the U.S. Virgin Islands.

Description of Defect : Description of the Defe	ect: Takata has si	ubmitted DIR 1	6E-042 (Zone A) in acco	ordance with the terms		

specified in the May 4, 2016 Amendment to the November 3, 2015 Consent Order in EA15-001. Subaru is submitting this DIR in accordance with section

46 of Coordinated Remedy Order.

FMVSS 1: NR FMVSS 2: NR

Description of the Safety Risk: Activation of a non-desiccated ammonium nitrate inflator with degraded

propellant may result in an inflator rupture. An inflator rupture may cause metal fragments to pass through the air bag and into the vehicle interior at

high speed, which may result in injury or death to vehicle occupants.

Description of the Cause: Based upon Takata's investigation to date, the propellant wafers in some of the

subject inflators may degrade over time, which could lead to over-aggressive combustion in the event the air bag is activated. Overly aggressive combustion creates excessive internal pressure when the inflator is activated, which may

cause the inflator body to rupture.

Identification of Any Warning None

that can Occur:

Supplier Identification:

Component Manufacturer

Name: Takata Corporation

Address: ARK Hills South Tower 11F

4-5 Roppongi 1-Chone Minato-ku, Tokyo FOREIGN STATES 106-8488

Country: Japan

Chronology:

November 3, 2015 - NHTSA and Takata entered into a Consent Order in EA15-001 to resolve issues raised in that investigation, to mitigate and control risks of harm, and to promote public safety.

May 4, 2016 - NHTSA and Takata entered into an Amendment to the November 3, 2015 Consent Order. As stated in that Amendment, on the basis of testing and analysis conducted by Takata and by independent research organizations, NHTSA has concluded that, "at some point in the future all non-desiccated frontal Takata PSAN inflators will reach a threshold level of degradation that could result in the inflator becoming unreasonably dangerous." As a result of this conclusion, and pursuant to Paragraph 29 of the November 3, 2015 Consent Order, NHTSA ordered Takata to file certain defect information reports ("DIR"), in accordance with the schedule set forth in Paragraph 14 of the Amendment.

May 16, 2016 - As specified in that schedule, Takata submitted the DIR.

May 20, 2016 - Subaru has determined to launch recall according to Section 46 of Coordinated Remedy Order.

Description of Remedy:

Description of Remedy Program: The remedy plan calls for dealers to replace the passenger airbag inflator.

How Remedy Component Differs NR from Recalled Component:

Identify How/When Recall Condition NR was Corrected in Production :

Recall Schedule:

Description of Recall Schedule: Subaru is confirming the registration history data of all potentially

affected vehicles. Upon completion, if parts supply is sufficient, Subaru will send owner notification letters advising the customer to schedule a

repair. If parts supply is insufficient, Subaru will send interim

notification letters advising the customer they are affected and will be re-

notified when parts supply improves.
