

Part 573 Safety Recall Report

16V-536

Manufacturer Name : Altec Industries Inc.

Submission Date : JUL 14, 2016

NHTSA Recall No. : 16V-536

Manufacturer Recall No. : CSN 635

Manufacturer Information :

Population :

Manufacturer Name : Altec Industries Inc.

Number of potentially involved : 200

Address : 210 Inverness Center Drive
Birmingham AL 35242

Estimated percentage with defect : 3 %

Company phone : 205-991-7733

Vehicle Information :

Vehicle 1 : 2015-2016 Altec Units with front bumper winch or capstan

Vehicle Type :

Body Style :

Power Train : NR

Descriptive Information : Aerial devices and digger derricks with front bumper winches or capstans.

Production Dates : DEC 26, 2015 - MAR 30, 2016

VIN Range 1 : Begin :

NR

End : NR

Not sequential

Description of Defect :

Description of the Defect : Hydraulic motor output shaft could fail.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Failure of the hydraulic motor output shaft used on certain winches or capstans could increase the risk of property damage or personal injury.

Description of the Cause : NR

Identification of Any Warning that can Occur : N/A

Supplier Identification :**Component Manufacturer**

Name : Eaton Hydraulics, LLC
Address : 14900 Technology Drive
Eden Prairie MINNESOTA 55347
Country : United States

Chronology :

In May 2016, Altec was notified by Eaton Hydraulics LLC in reference to a recall on certain hydraulic motors. These motors are used on hydraulic front bumper winches and capstans built by PACCAR, TWG and Warn and purchased by Altec. Based upon the criteria in the recall notice, the winch/capstan suppliers recommended that all motors used in hoisting and recovery applications be replaced. Altec researched manufacturing records to identify units built during this time period with front bumper winches or capstans that could have the recalled motors. Affected customers will be notified to inspect for and replace any of the recalled motors. There have been no reports of injuries to date.

Description of Remedy :

Description of Remedy Program : Altec will issue CSN 635 to all affected customers requiring them to identify and replace any of the recalled hydraulic motors

How Remedy Component Differs from Recalled Component : N/A

Identify How/When Recall Condition was Corrected in Production : N/A

Recall Schedule :

Description of Recall Schedule : NR
Planned Dealer Notification Date : NR - NR
Planned Owner Notification Date : AUG 17, 2016 - AUG 18, 2016

* NR - Not Reported
